

Our Will-Packages contain the stated items for a single fixed price.

We have created each Package to provide our very lowest prices and our highest savings. We also allow an added flexibility to each Package, to meet your full requirements.

If you choose a Will-Package that does not adequately meet your needs, you may add other items from our general Price List. The extra item fee(s) is then included with your Package price.

You may choose a Will-Package with an item that you do NOT need and you are not obliged to have it, but please note, this will not alter the fixed Package Price.

You are of course free to purchase any item in our general Price list, whether you purchase a Will-Package or not.

So please discover your cheapest option and the most satisfactory combination.

All Fees are fixed and include taxes and costs. No hidden costs!

Payment by cheque or cash is required on completion of the documents and before any document storage.
